## Commercial Project Fees

Wastewater capacity fees for commercial developments are based on the loadings/gallons per day (GPD) required for the development. The contractor's or developer's engineer usually determines this GPD. The GPD for wastewater is multiplied by 1.5 to determine the water GPD. BJWSA's commercial minimum is 300 GPD for water and 200 GPD for wastewater.

Wastewater capacity fee:	\$9.20/GPD
Water capacity fee:	\$3.00/GPD
